Peninsula Regional Medical Center has received the 2006 Five-Star Rating for excellence in prostate surgery. It's the highest mark given by Healthgrades®, the nation's leading health care ratings company. In fact, we're the only facility rated #1 in the state of Maryland, Delaware, and on the Delmarva Peninsula.

We would like to thank and congratulate the physicians at Peninsula Urology Associates, P.A., who work closely with the Peninsula Regional health care team. Together, our combined experience and commitment to excellence add up to outstanding care for our patients.
